

Vehicle # _____

TECH SHEET (VEHICLES)

Tires must have an “A” temperature rating or greater.

These technical specifications are intended as a guide and are in no way a guarantee against any harm to spectators, entrants or others. No expressed or implied warranty of safety shall result from the issuance of, or compliance with these technical specifications. You are reminded that all motor sports are dangerous and that the safety of yourself, your family, your friends and your vehicle are your sole responsibility. I have inspected my vehicle on _____ (date) and will re-inspect my vehicle prior (12 hours or less) to the running of my vehicle in this event. I have inspected all that is listed on this form and take full responsibility for its condition on the track. I am also aware that a technical inspection will be performed at the event. By signing here, I certify that the car is in safe operating condition for racing and participating in track events. I recognize and assume all risk of damage, injury and death that may be caused by a failure of any component of the car, including without limitation the items listed on the tech sheet. I have not relied on the list to be comprehensive or tailored to my car; it is instead a guideline. I am responsible for insuring that my vehicle is in safe operating condition before each and every event in which I am a participant. I release Nature Island Motorsports, its sponsors, shareholders, affiliates and all persons and companies that have or might assist in the process of inspecting my car (collectively, “Released Persons”) from all liability of any kind for any property damage, personal injury or death that may occur to me or any occupant of my vehicle as a result of any of their acts or omissions, expressly including any negligent acts or omissions by the Released Persons. I understand that all forms of motor sports are dangerous and can kill me, I am an adult and accept all of these risks and agree not to join the litigious ranks of persons who believe all injury must be the result of fault by a person with money. This release is in addition to and cumulative of all releases I have given in conjunction with my entry and participation in a Nature Island Motorsports Event.

Print Name of Entrant/Driver _____

Signature _____

DATE: _____

Vehicle TECH Speed (Circle) Filled out by tech inspector: 100 MPH 120 MPH 140 MPH 150+ MPH

Vehicle Make/Model/Year/Color/Number:

Are you running on Methanol? _____ Are you Running Nitrous? _____
 Are you running on Ethanol? _____

INSTRUCTIONS TO INSPECTOR: In the line next to each item, insert either yes (Y) or no (N). If you place a no (N) next to an item, please elaborate on the condition you found in the comments section or attach a piece of paper. The driver of the vehicle will be responsible for addressing/correcting the items with a no (N) next to it. The driver will have to note in the comments section or piece of paper of how and when the item was corrected and be prepared to have the correction visually verified.

You, The Driver/Entrant must check off and verify each applicable item on the following page.

<p>WHEELS AND TIRES:</p> <p><input type="checkbox"/> Tires have a Minimum "A" temperature rating.</p> <p><input type="checkbox"/> Tires are in good condition for running at and over 130 mph. Wear indicators are at safe minimum specification and tires meet speed and temperature rating per regulation.</p> <p><input type="checkbox"/> All lug nuts present and tight to proper spec.</p> <p><input type="checkbox"/> Hubcaps or beauty rings are removed or screwed secure.</p> <p><input type="checkbox"/> Wheel Bearings are in good condition.</p>	<p>STEERING AND SUSPENSION:</p> <p><input type="checkbox"/> Steering is tight.</p> <p><input type="checkbox"/> Shocks are secure and in good operating condition and free of leaks.</p> <p><input type="checkbox"/> If sway bars present, they are secure and tight.</p> <p><input type="checkbox"/> Ball joints and tie rods secure and good operating condition</p> <p><input type="checkbox"/> All other suspension components are in good operating condition.</p>
